PORK PICKIN'S Appomattox Pork Producers

The South Central Feeder Pig Association will hold their monthly sale this Thursday night at the Farmville Livestock Market.

The Appomattox Pork Producers and the Piedmont Pork Producers are in the process of working with the Five-County Fair Committee in an effort to improve the fair and include in the fair program a Barrow Show which will be open to both youngsters and adults alike. This is an attempt on the part of the pork producers to make more of a fair out of the event instead of a Carnival.

The Market Hog Show for the state as well as the Piedmont Market Hog Show are just around the corner. Most of the hogs on feed by our county 4H and FFA members appear to be doing very well. We sincerely hope that the county youth can make a fine showing in this upcoming event.

The Appomattox County Pork Producers and their families will be supplying a special food concession at the Piedmont Market Hog Show in August. This will be one Appomattox County's project for pork promotion this summer.

The Hog-Corn Ration remains at under 10 and it is 10 points less than a year ago. In spite of this dism[illegible] ratio most of the real pork producers appear to be optimistic for the fall quarter of the year.

Most pork producers were glad to hear that retailers are being watched more carefully as to their pricing of meats and their profit margins. Consumer groups as well as the government are studying the price fixing of these large monopolies.

Coffee prices may be moving up, world-wide production of exportable production is down 22% from a year ago. Two reasons are given for the decrease in production-- frost damage and leaf rust.

Tomatoes not grown under black plastic require extra nitrogen fertilization is maximum production is obtained. After the first blossom set fruit, a monthly application of calcium nitrate at the rate of 16.5 pounds of actual nitrogen per acre should be applied.

Calcium nitrate is superior to other nitrogen forms in that it helps reduce blossom end rot.

Tomatoes grown under plastic do not require sidedressing because plastic prevents leaching.

report that Brother Howard Stevens is out of the hospital and will be coming home very soon now.

A special offering was listed Sunday, June 2nd at Galilee Baptist Church for Sister Leatha Moss, who has been on the sick list, but is now showing much improvement we are happy to state.

There are others to be remembered who have been sick in the membership at Galilee Baptist Church and also spent some time in the hospital. They too, shall be remembered in the near future.

Commencement time is now at hand and our boys and girls are looking forward to this glad day. The Galilee Baptist Church will look forward to two graduates this year. We hope for them much success as they go for higher learning, or seek jobs to make a living. We pray for their success as they journey through this life.

We pray for Sister T. W. Hamlet and the Watkins family in the loss of their loved one, the late Mrs. Vernell Straud, who past in a hospital in Maryland after an illness which had lasted for a number of years. We pray that her soul is at rest. The late Mrs. Stroud passed Wednesday, May 29th, 1974, in a Maryland hospital.
